Association for
Chief Financial Officers

Making Japanese “Keiri/Zaimu” (accounting & finance) go world wide

The association was established in January 1, 2011 by Mr. Akira Kaneko, who is Economic, Finance and Management Reviewer, Former Advisor to Financial Supervisory Agency (currently Financial Services Agency) and High-level Advisor to Japan Association for Chief Financial Officers, with endorsement of Mr. Toyoo Gyoten, President of Institute for International Monetary Affairs, who readily agreed to serve as High-level Advisor to the Association, in the hope of providing all companies, stores, private businesses and individuals with opportunities to voluntarily and willingly learn, think about and act on Japanese “Keiri/Zaimu” (a term coined by Mr. Kaneko) without spending a single dollar or a single second. Mr. Kaneko has embraced a strong belief that the Japanese “Keiri/Zaimu” can contribute to the well-being of people in Japan and around the world and the association will help them become aware of it.

Seeking to achieve the goal that everyone has an opportunity to learn without spending a single dollar or a single second

Seeking to achieve the goal that everyone has an opportunity to learn without spending a single dollar or a single second

The association is open to anyone in Japan and around the world.

If you want to willingly learn, think about and act on Japanese “Keiri/Zaimu” and “use it to make people happy,” you are welcome to learn with us (at your own place).

In line with the association’ s aim that “anyone can learn, think about and act on Japanese “Keiri/Zaimu” without spending a single dollar or a single second,” we have posted on YouTube a series of 12 hours of lectures in 12 sessions by Mr. Akira Kaneko so that anyone can share his idea for free from any place in the world where the Internet access is available.
